Decision: Revision

An initial review has made it clear. According to the reviewers' comments, we regret to inform you that your manuscript cannot be accepted in Indonesian Journal of Science and Technology in this condition. However, if you could revise the manuscript, based on reviewer comments, we welcome to receive your revised manuscript before 10 June 2021. If you need further time, please let me know. Some comments are in Bahasa Indonesia. If you need translation, please contact us.

Comments from reviewers are in the following:

This paper is interesting, but it needs revision.

The current paper will not be cited. There is nothing new. But, I think that there is a possible way if editor wants to accept this paper.

- Title must be changed. For example, by adding "literature review" word. I suggest "literature review and experiments for xxx" But, authors can check again the English. Please discuss with English proof reader
- English must be rechecked.
- Add 1 section about literature review. I suggest to put the structure:
 - Introduction
 - Literature review
 - Materials and Methods, etc
- Add 1 paragraph in the last paragraph in Introduction. Put sentences:
The main novelties are (1) xxx, (2) xxx, (3) xxx, (4) xxx, etc.

Decision: Major or Reject

- Improve the description of the context where this study results will provide
- Need to update the citation if possible
- In the introduction should be included the existing research gap, explaining the unique differences between this study compared to similar previous studies.
- The results of the study are presented in the form of narrative/textual, tables, or images in the form of graphs or diagrams. Avoid displaying raw data.

Decision: Revision

his paper is quite good, but some parts need revision.

- The method must explain how data is obtained.
- The author should be written how the results will be measured, tested, and evaluated.
- Add explanation for the formula.
Such as NNI stand for xxx.
- Avoid spelling mistakes, typos, and grammatical errors. You can use a tool such as Grammarly or recommendations provided by MS Word for language checking.
- The figures and tables must be self-explanatory, such as degree of distribution or percentage distribution.
- The figure must be clearly and visible when published online (colored) or printed (black and white)
- Please check the guideline of the Journal
- Please add citations from International journal of UNIKOM, IJOST, and Indonesian national accredited journals (SINTA 1/2) related with this research.
- Put detail process of methodology and match with data analysis will be good.
- Some of the literature too old, please using the last 5 years literature (except the basic theory)
- If possible the authors may add some limitations of study or threat to validity.
- The header should be written according to the author's name and the title.
- The place and time of research do not need to be included in the title unless the research is specific to a particular time and place.
- Re-check the font size in the reference. The last reference should be 12 Calibri.
- The reference must come from credible sources.
- Make sure that you already double-check the citation according to the reference

Decision: Major

RESPONSE TO REVIEWER #1

Reviewer #1:

This paper is interesting, but it needs revision. The current paper will not be cited. There is nothing new. But, I think that there is a possible way if editor wants to accept this paper.

1. Title must be changed. For example, by adding "literature review" word. I suggest "literature review and experiments for xxx"

But, authors can check again the English. Please discuss with English proof reader

Response to the Reviewer #1:

Thank you for the suggestion.

We did not use experimental methods for this study but a survey of shopping facilities and tourism service facilities in the North Bandung Region. The literature review is an integral part of this research. Therefore, in our opinion, there is no need to add the words "literature review and experiment."

By the reviewer's suggestion, we have also discussed this with the English proofreader.

Reviewer #1

2. English must be re-checked.

Response to the Reviewer #1:

Thank you for reminding us. We have re-checked the English.

Reviewer #1

3. Add 1 section about literature review. I suggest to put the structure:

- Introduction
- Literature review
- Materials and Methods, etc

Response to the Reviewer #1:

We are grateful for the advice.

We already added one section about literature review

Reviewer #1

4. Add 1 paragraph in the last paragraph in Introduction. Put sentences:

The main novelties are (1) xxxx, (2) xxxx, (3) xxx, (4) xxx, etc.

Response to the Reviewer #1:

We appreciated the suggestion. We already added a paragraph in the Introduction.

Reviewer #1

5. Improve the description of the context where this study results will provide

Response to the Reviewer #1:

Thank you for the suggestion. We already improved the context of the study results.

Reviewer #1

6. Need to update the citation if possible

Response to the Reviewer #1:

Yes, it is possible to update the citation.

We have already updated the citations.

Reviewer #1

7. In the Introduction should be included the existing research gap, explaining the unique differences between this study compared to similar previous studies.

Response to the Reviewer #1:

We are thankful for the advice. We already included the research gap in the Introduction clearly and explained the unique differences between this study compared to similar previous studies.

Reviewer #1

8. The results of the study are presented in the form of narrative/textual, tables, or images in the form of graphs or diagrams. Avoid displaying raw data.

Response to the Reviewer #1:

Thank you for reminding us. We already avoided displaying raw data.

RESPONSE TO REVIEWER #2

Reviewer #2:

This paper is quite good, but some parts need revision.

Response to Reviewer #2:

Thank you for reminding us regarding the header. We have changed the header.

Reviewer #2:

13. The place and time of research do not need to be included in the title unless the research is specific to a particular time and place.

Response to Reviewer #2:

We appreciated the comment. However, the place is essential to be included in the title.

Reviewer #2:

14. Re-check the font size in the reference. The last reference should be 12 Calibri.

Response to Reviewer #2:

Thank you for the information. We have revised the font size of the last reference into 12 pt Calibri.

Reviewer #2:

15. The reference must come from credible sources.

Response to Reviewer #2:

We are grateful for reminding us. We applied the references are from credible resources.

Reviewer #2:

16. Make sure that you already double-check the citation according to the reference

Response to Reviewer #2:

We appreciated the suggestion, and we have double-checked the citation and the references.
