Title:

LAW HYPER-REALITY BETWEEN HOAX AND IMPLEMENTATION OF LAW NO. 19 OF 2016: AN ACTUALIZATION OF LAW PERSPECTIVE ON TECHNOLOGY TRANSFER

Authors:

MUSA DARWIN PANE

Institutions:

UNIVERSITAS KOMPUTER INDONESIA

[JALAN DIPATIUKUR NO. 112-116, COBLONG, LEBAK GEDE, KOTA BANDUNG 40132](#)

Content:

The existence of values of a reality disappears when false information (familiarily known as hoax) widely spread to all law aspects in Indonesia. Consequently, law, technology, and perception on reality are simulated into a distortion (manipulation) that Jean Baudrillard eventually calls it as a hyper-reality. A hyper-reality development of media may not be separated from the development of media technology which is known as a simulation technology. However, what becomes the main concern is the technology transfer within the law context on how the law perspective evaluates a reality from false information (hoax). Article 28 paragraph (1) of Law No.16 of 2016 normatively mentions that the society has already been well protected from the hoax spreading. However, the law interpretation conversely explains that the word "false [bohong]" and "misleading [menyesatkan]" are two different things. Within a phrase "spreading a false information", the regulated one is the action, while the word "misleading", the regulated one is the consequence. Hoax phenomena which grow and develop within hyper-reality media have recently become more complicated problems and unavoidably spread throughout Indonesia. Through social media provided in internet, hoax phenomena are greatly confusing. Thus, how law may then evaluate, interpret, and change those conditions to become a valuable reality.
