Editor and Reviewer comments:

Reviewer #1:

1. The abstract should provide a clear and concise overview of the research topic. Consider revising the abstract to provide a more focused introduction to the specific aspects of corruption eradication amid the Covid-19 pandemic in Indonesia.
2. Ensure that the information in the abstract is supported by evidence and references. It is important to cite relevant sources or studies to strengthen the arguments and claims made in the abstract.
3. The abstract mentions the broad impact of corruption on various sectors, such as education, society, economy, and politics. It would be beneficial to provide specific examples or case studies to illustrate these impacts and demonstrate the severity of the issue.
4. The abstract briefly mentions the government's efforts to combat corruption through the passage of Law Number 2 of 2020. It would be helpful to expand on this point and provide more details about the provisions and mechanisms within the law that specifically target corruption during the Covid-19 pandemic.
5. The statement about certain articles in the law is deemed incompatible with the 1945 Constitution, and Pancasila is interesting but lacks elaboration. It would be valuable to explain further which articles are being referred to and why they are incompatible. Providing a more detailed analysis would strengthen the argument and enhance the overall quality of the article.

I hope you can make improvements as soon as possible and send the revised article again via this email.
