We have improved the writing of this paper by:

1. Follow the template from the Lontar journal
 2. Using endnote in the citation and reference section
- Hopefully this improvement can be accepted

Note : We send this e-mail, because we can't send our paper revision using <https://ojs.unud.ac.id/index.php/lontar/authorDashboard/submission/41097> , Upload file menu in that dashboard doesn't work.

Thank You

Irawan Afrianto:

We have reached a decision regarding your submission to Lontar Komputer : Jurnal Ilmiah Teknologi Informasi, "The **Online Journal Aggregator System Design Using User Centered Design (UCD) Approach**".

Our decision is to: Revisions Required

Reviewer A:
please check attachment

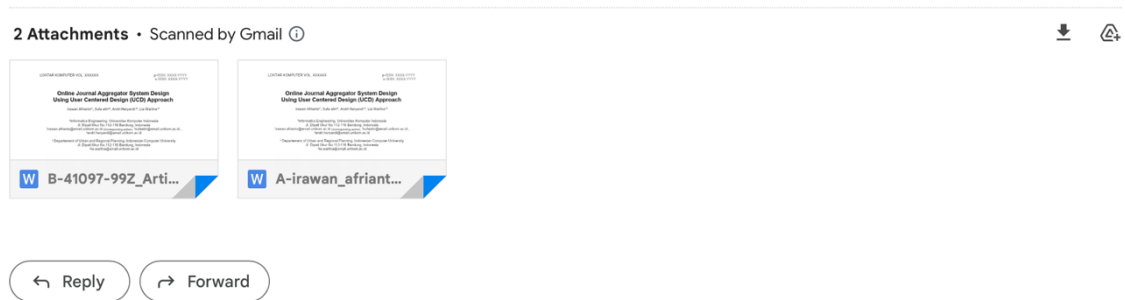

Reviewer B:
1. Please consider to proofread the manuscript before being published. There are a number of typos.
2. Other comments are available in the manuscript document.

From Editor:
1. Add a comparative analysis with the **UCD** method referred to in the state of the art.

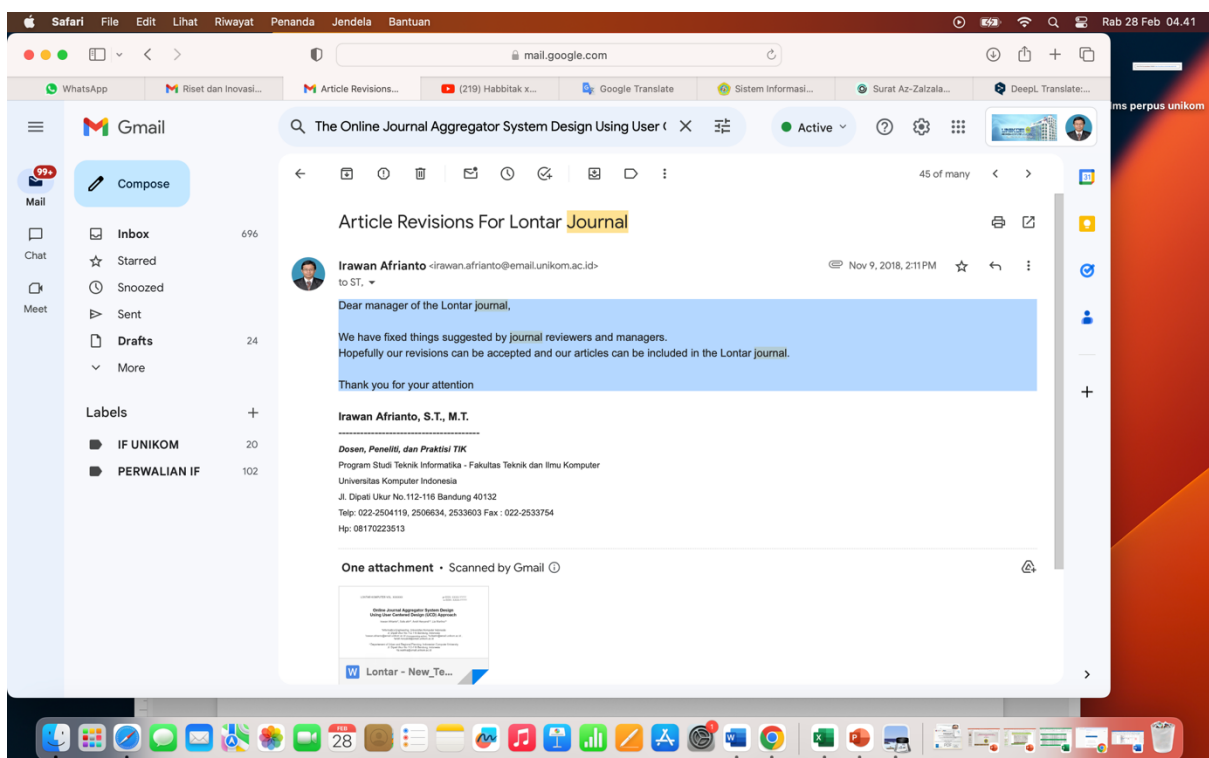

2. Explain the novelty of the research conducted

3. Add Reference from **Journal** with the last 5 year. In manuscript i check that **journal** use only 9 from 16. The minimum **journal** citation must be 80% from all reference use.
