Object in JS

- Text Object
- Radio Object
- Checkbox Object
- Textarea Object
- Select Object

Text Object

```
1 <html>
2   <head><title>Practice with Text Object</title></head>
3 <body>
4   <script language="javascript">
5     function press()
6   {
7     var namestr = (document.fform.name.value);
8     var adresstr = (document.fform.address.value);
9     document.fform.otype.value = namestr;
10    document.fform.oaddress.value = adresstr;
11  }
12 </script>
13 <form name = "fform">
14   <h1> Input Data with Text Object</h1><hr>
15   <pre>
16     Your Name : <input type="text" size="11" name="name">
17     Address : <input type="text" size="25" name="address">
18   </pre>
19   <br>
20   <input type="button" value="Send" onclick="press()">
21   <input type="reset" value="Reset">
22   <h3>Output</h3>
23   <pre>
24     Your Name is :<input type="text" size="11" name="otype">
25     Your Address at :<input type="text" size="25" name="oaddress">
26   </pre>
27 </form>
28 </body>
</html>
```

Radio Object

```
1 <html>
2 <head><title>Practice with Radio Object</title></head>
3 <body>
4 <script language="javascript">
5   function radio_box(form)
6   {
7     var ket = "";
8     if (form.female.checked == true)
9     {
10      info = "Female";
11    }
12    else
13    {
14      info = "Male";
15    }
16    alert('You are ' +info);
17  }
18 </script>
19 <form>
20 <h1>Input Data with Radio Object</h1><hr>
21 <p><input type="radio" value="female" name="female">Female</p>
22 <hr>
23 <p><input type="button" value="Confirm" onclick="radio_box(this.form)">
24 <input type="reset" value="Reset"></p>
25 </form>
26 </body>
27 </html>
```

Checkbox Object

```
1 <html>
2 <head><title>Practice with Checkbox Object</title></head>
3 <body>
4 <script language="javascript">
5   function radio_box(form)
6   {
7     var info = "";
8     var info1= "";
9     if (form.football.checked == true)
10    {
11      info ="Watching Football ";
