47 of many

of the research/study method:
Neutral

Presentation: Clarity and Organisation of Content, Structure of the paper, Standard of English, Relevance and clarity of drawings, graphs and tables, Appropriateness of abstract as a description of the paper:
Reject

Recommendation: Overall view and recommendation:
Neutral

Strengths/Weakness: What are the major reasons to accept/reject the paper? [Be brief]:
It is hard to see the uniqueness of the paper. The content is presented in quite poor english, not so easy to follow and understand. The presentation of diagram and table is messy at Pg.3. The citation is not ordered correctly. The DFD and Use-case diagram presentation can be tidied up. The explanation of the diagram is not complete.

Contribution/s & Detailed comments: What are the major issues addressed in the paper? Do you consider them important? Comment on the degree of novelty, creativity and technical depth in the paper.:
Major issue addressed here is the Information system developed in web based and android to endorse and advertise Bandung's tourism spot.
