Dear Editor
IJAIR presents

We have read and used scientific articles published in IJAIR.

The performance of the IJAIR was excellent, and the published article helped us conduct research and write scientific reports.

I am Inta Budi Setya Nusa, representing other authors, Lecturer from Universitas Komputer Indonesia

We have completed a scientific article entitled " **The Influence of Information Technology and The Perception Of Usefulness On The Use Of E-Filing** "

We hope this article can be published in the IJAIR because exciting findings in the scientific report can become new treasures in science, especially in government.

We are willing to go through the review process following IJAIR standards.

Best Regards,

Inta Budi Setya Nusa
Universitas Komputer Indonesia

Dear
Inta Budi Setya Nusa et.al
Universitas Komputer Indonesia

Thank you for submitting your manuscript to IJAIR.

We have completed our evaluation, and the reviewers recommend reconsidering your manuscript following minor revisions. Please resubmit your revised manuscript by September 26, 2021, or ask whether an alternate date would be acceptable. We invite your team to send it back after addressing the comments below.

When revising your team manuscript, consider carefully all issues mentioned in the reviewers' comments: outline every change made in response to their comments and provide suitable explanations for any remarks not addressed. Please also note that the revised submission may need to be re-reviewed.

To submit your team revised manuscript, please log in as an author(s) at this email, and navigate to the "Revision" folder.

IJAIR values your contribution, and I look forward to receiving your team revised manuscript.

Editor and Reviewer comments:

Reviewer #1:

1. This paper has some interesting information, and the topic is quite important; however, it seems that some essential points indicate deficiencies in data collection (questionnaires), thus making the conclusions questionable.
2. The approach to using English is poorly understood, so as a first step, a firm editorial hand is needed to figure out what to rethink.
3. The literature review refers to engaging experience and studies elsewhere, but it is not well linked to the research and, therefore, the conclusions.
4. The focus of this paper is more based on Indonesia alone. What if taken from another country?
5. There should be more information about the object of research, not only about the content of the study.

I hope you can make improvements as soon as possible and send the revised article again via this email.

Dear

Inta Budi Setya Nusa et.al
Universitas Komputer Indonesia

Thank you for your team's efforts to improve your team article.

Based on the Reviewers' considerations, the article has, at some point, increased.

However, your team has to improve on a few more points. Hopefully, your team is willing to do it.

Please follow the following revision instructions:

#Reviewer 2:

1. I hope this article can be used soon even though only English in other parts is so low that it is difficult to read. But the topic is vital.
2. The literature review includes some tantalizing references, but the links are not made more to specific studies even after sifting through language issues.
3. When the study model comes into play, serious questions exist about the system being used.
4. This article can be published if the Author can work and often asks editors or colleagues fluent in English to clean up inappropriate language and arguments.
5. Additional notes it is not clear what title refers to the article.

Articles that have been revised and please send them back via this email.
